

The Daily Ardmoreite.

VOLUME TWENTY-THREE

ARDMORE, OKLA., THURSDAY, NOVEMBER 4, 1915

NUMBER 24.

ALLIES OF SERBIA ARE ACTIVE IN MACEDONIA

SUCCESS OF BRITISH AND FRENCH TROOPS REPORTED AT ISTIP, WHERE THE BRITISH AND FRENCH ARE ALIGNED.

Berlin Admits Serbian Success at Nishava River, where Bulgarians Were Thrown Back by Superior Forces—Invading Teutons, However, Continue Their March and are Now Only Five Miles from the Temporary Capital of the Serbians—Reported Bulgarian Revolt Would Menace Retreat of Serbian Army—Russian Troops Being Concentrated at Rani, Bessarabian Port, from Which They Would Make Direct Landing in Bulgaria—Hindenburg Unable to Capture Riga, Preparing to Enter Winter Quarters on his present Position—More Greek troops are Being Landed at Saloniki—Greeks Show Preference for Venizelos and Expected that Zaimas Cabinet in Greece will Now Resign.

London, Nov. 4.—The French and British Allies of Serbia have become active in Macedonia, gaining a reported success at Istip.

Berlin admits a Serbian success at Nishava River, where the Bulgarians were thrown back by superior forces. The invaders, however, are only twelve miles from the Serbian temporary capital.

The Russians are concentrating forces at Rani, a Bessarabian port, whence they are expected to make a direct landing in Bulgaria.

Petrograd says that General von Hindenburg, despairing of the capture of Riga, is preparing winter quarters on his present position.

The French claim the recapture of the advanced trenches in Champagne district.

Additional French troops are being landed at Saloniki.

King Peter of Serbia is reported en route to the battle front, to encourage his troops and take the news that allied aid is coming.

An Albanian revolt in Serbia is reported by Rome. This would menace the retreat of the Serbian army.

Zaimas Government Defeated
Paris, Nov. 4.—The Zaimas government of Greece has been defeated in the discussion of the proposed military laws and a vote of confidence resulted adversely to the government. A dispatch says the Zaimas cabinet is expected to resign. Former Premier Venizelos' party led the opposition.

Germany Fights to End.
Lucerne, Switzerland, Nov. 4.—Prince von Buelow, the reported Berlin peace emissary, told the Associated Press today that the war must be fought out. Germany is united, possesses every resource in material and is resolved to continue the war to a conclusion by arms, he said.

Zaimas Cabinet Resigns
Athens, Nov. 4.—The Zaimas cabinet resigned today. The immediate cause was a remark made by war minister Yanakitsas, to which Venizelos demanded an apology. A vote of confidence followed. The chamber has adjourned until a new cabinet is formed.

King George Improves.
London, Nov. 4.—King George had somewhat disturbed night, but is better this morning.

Armenians Drowned Babies
Chicago, Ill., Nov. 4.—Babies were thrown into bath tubs to drown when Turks began the massacre in Armenia. Mrs. Samuel Byloz said here today on her return from Armenia, here she had been visiting.

Disabled German Submarine
The Hague, Nov. 4.—A disabled German submarine was towed to the North Sea Dutch island this morning. Rocket signals were used by the submarine to show distress.

Mikulischki is Retaken
Berlin, Nov. 4.—The Germans have retaken Mikulischki.

WEATHER FORECAST
New Orleans, La., Nov. 4.—The weather forecast for Oklahoma for tonight and Friday is fair.

Alleged Murderer Surrenders.
Waxahatchie, Tex., Nov. 4.—D. A. Herring, charged with the murder of George North yesterday, today surrendered to the officers.

Marine Wounded and Five Natives Killed Yesterday
Washington, D. C., Nov. 4.—Private Dudshek, an American marine, was wounded and five natives killed in a fight near Letrou, Haiti, yesterday, according to Admiral Caperton's report today.

Killing at San Angelo
John Cashion Shot to Death and Chris Pistol Under Arrest.
San Angelo, Tex., Nov. 4.—John Cashion was shot and killed here today. Officers have arrested Chris Pistol for the crime. A business argument is said to have caused the trouble.

Another Fight in Haiti
Marine Wounded and Five Natives Killed Yesterday
Washington, D. C., Nov. 4.—Private Dudshek, an American marine, was wounded and five natives killed in a fight near Letrou, Haiti, yesterday, according to Admiral Caperton's report today.

Wind Saved the Town.
Muncie, Ind., Nov. 4.—A change in the direction of the wind and a light rain saved the town of Red Key, near here, from fire today. The estimated loss was \$110,000.

INDIAN WANTED MONEY

Ran Away from University. Wanted Guardian to Finance his Trip.
R. A. Howard received a telegram from St. Louis yesterday in which an Indian boy was requesting that money be sent to him. Upon investigation, the Ardmore attorney learned that an Indian lad for whom the court had named him guardian, had run away from Carlisle university and had gotten as far as St. Louis, when his money gave out and he had wired to his guardian to send him funds that were very much needed just at that time. Mr. Howard did not hurry about sending any money, but instead took the matter up with the Indian office. As a result, the Indian agent is sending a man to get the Indian lad and take him back to school. R. A. Diggs of this city was assigned to this duty, and, combining pleasure with the business, Mr. Diggs left here today, accompanied by Mrs. Diggs. After they have attended to the business of their mission, they will visit for a few weeks in the east, including Chicago, where their son, Marshall Diggs is attorney for a large corporation.

TO ENTERTAIN OLD VETERANS AT THE HOME

PLANS FOR MUSICALES AND DANCES UNDER DISCUSSION WITH HEARTY CO-OPERATION OF THE BOARD OF TRUSTEES.

At a meeting of the board of trustees of the old Confederate Home yesterday afternoon, the question of entertaining the old confederates was discussed with the mayor and commissioners. General T. D. Turner made a very strong and impassioned plea for the "boys who wore the grey." He stated among other things that the citizens of Ardmore had promised that if the home be located here that they would lend some assistance in the making the last few years of these old soldiers happy. Colonel Sneed and Dr. Hailey also spoke along these lines and it was suggested that the young people of Ardmore have a dance or musicale down at the home twice a month. General Turner stated that they spent forty thousand dollars a year for the maintenance of the home, nearly all of which was spent with Ardmore enterprises, and he felt that from a business standpoint as well as from a social standpoint we should take an interest in the welfare of the home, but above it all, we should help make their last few years and with some even weeks, as pleasant as we could.

The mayor will take the matter up with the citizens and see if we cannot get a party to go down about Monday evening for an hour or two and then hereafter about twice a month have music, dancing, etc. Friday evenings, so the school boys and girls can attend.

COTTON SEED OIL FIRE IN DALLAS TODAY

NINE 40,000-GALLON TANKS OF COTTON SEED OIL DESTROYED BY FLAMES AT DALLAS EARLY THIS MORNING.

Dallas, Tex., Nov. 4.—Fire early this morning destroyed the Dallas Oil & Refining company's plant here, together with nine 40,000-gallon tanks of cotton seed oil. The loss is estimated at \$60,000.

Wind Saved the Town.
Muncie, Ind., Nov. 4.—A change in the direction of the wind and a light rain saved the town of Red Key, near here, from fire today. The estimated loss was \$110,000.

BUD YOUNG IS GOING TO THE LEGISLATURE

SO SAYS A NUMBER OF HIS FRIENDS AND HE HAS ABOUT DECIDED THAT HE WILL ENTER THE RACE.

It will not be many months now before the voice of the candidate will be heard throughout the land, and the usual scramble for party preference at the primaries will be on in real earnest, to the delight of the innocent bystander, and the consternation of the residents of the rural districts who will have to bear the brunt of the burden of the campaign.

Among the other candidates who will flock to the tall grass, will be one for representative from this county to succeed Kelly Brown, who has moved to Muskogee, and to those who have had their ear close to the ground it is plain who that candidate will be.

It is none other than our friend the county commissioner from the First district, — G. W. (Bud) Young, and believe us, when he starts he is "some" campaigner. Mr. Young has not made a definite announcement of his intentions, but he has been petitioned by a number of his friends to make the race, and he has about decided to comply with their wishes, "shy his hat into the ring," and mix it with the boys.

"Uncle Bud" is not unused to the game of politics. He has been at it all of his life, and the thirty-nine years he has resided in this section of the state, has witnessed him in many a warm debate in Indian legislation, where he served as a senator in the Indian legislature for six years.

He introduced many good measures and was always fighting for the best interests of the people. He was slow to take issue, but once he was convinced he was in the right, the opposition might as well give in, or he would take the floor and talk him into a state of "innocuous desuetude."

"Uncle Bud" is serving his second term as county commissioner from the First district, and has proven himself a most efficient officer. He says he may not be able to use the most flowery speech on record, but his store of horse sense makes up for what he lacks in the way of oratory. He was to thoroughly guard the interests of the people, and nothing can be slipped over on him when in session with the Board of County Commissioners. He was born in Kentucky—how long ago he says does not matter. He has been a resident of this portion of the state for thirty-nine years, and his friends and neighbors attest to the many good deeds he has performed for those who were not able to care for themselves. He not only built school houses in which to educate the children of the community, but paid the teachers out of his own pocket, and in more than one instance has furnished the means for a family to make a start in the world. His many friends would be glad to have him as their representative. They could rest assured of one thing: Their interests would be looked after in the halls of the legislature of the state.

Perhaps there will be other candidates for this position, but if there are others, it will only add zest to the battle, and whoever enters against this old war-horse will realize, before the race is over, that there has been some campaigning going on in Carter county.

Since emigrating to this country, Mr. Young has accumulated some fine farm and ranch lands. He has proven himself a good business man in the management of his own affairs, and is amply qualified to look after the affairs of Carter county in the halls of the legislature, should he decide to make the race, and should he be the choice of the people.

Another Chinese Heir.
Pekin, Nov. 4.—A sixteenth son and the thirty-first child was born today to President Yuan Shi Kai of China.

FINE PECAN YIELD

One Firm Has Already Shipped Three Cars from Ardmore.

The pecan crop in this section this year is very good. The nuts are well matured and of a very fine flavor, and are bringing good prices. J. B. Warren of San Antonio, Tex., is here buying pecans. He and James McCharen are working together and have already purchased and shipped three cars of nuts from this city. Mr. McCharen expects to purchase several more cars before the season ends.

The pecan here is a native nut, very few persons, so far, have begun the cultivation of the larger pecan, but the pecan industry has been attracting attention here for some time and some of these days Carter county will be known as the pecan center of the state. This will be largely due to one man, who is a pecan enthusiast, and who has budded many hundreds of trees for himself and for other land owners. That man is O. K. Darden of Lone Grove, who is known as the pecan king of Oklahoma.

SENDING BACK CHECKS SENT RELIEF FUND

MONEY THAT IS NOT NEEDED IS BEING RETURNED TO CITIES WHICH CAME TO RELIEF OF ARDMORE.

When Ardmore was suffering from the greatest calamity in her history, and sent word to the mayors of other cities that financial assistance would be acceptable, it also notified them that in the event more money was donated than was necessary, it would be returned to the donors, with as much gratitude as though it had been used. Acting upon this, all moneys were kept in a separate fund from the local contributions, and now that the relief work is practically completed the committee finds it has several hundred dollars that they have no use for, and this will be returned at once. Today the mayor returned a check to the mayor of Tulsa for \$500, and he and ex-Governor Cruce have many others that will be returned as soon as they can find the time to do so.

Ex-Governor Cruce stated this morning that every citizen of Ardmore is profoundly grateful for the generous contributions from other municipalities, and while he hoped that no calamity would ever befall them, yet if it should it will find Ardmore as ready to respond to their relief as they were to ours.

The relief committee will have to take care of several families for some time to come, but they believe the local funds will amply provide for that, and will return all that is not needed. The governor further stated that in returning this money, Ardmore is establishing another precedent, as she did when the Ardmore way of making settlement with corporations was launched by the citizens' committee and the Santa Fe officials.

TEXAS MADE GOODS

Texans to Insist on Buying "Made-in-Texas" Products.

Austin, Tex., Nov. 4.—Governor Ferguson today proclaimed the week of Nov. 21-27 as "Buy it Made in Texas" week, during which all loyal Texans are asked to supply their larders with Texas-made goods and also serve menus containing state products.

Rumor from Maloney

A report from the Hamon-Maloney well in 26-43 states that it has a showing of oil. The well at the last report was at a depth of 1310 feet, where a high salt water sand was encountered. The drill went back into blue shale from the water sand and it is not improbable that the report is correct. A well down to the southeast would give the field a big extension that would add millions of wealth to Carter county oil land owners, and those who have holdings in that direction are intensely interested.

CARRANZA'S MEN CHIEF OFFENDERS

FUNSTON REPORTS THAT MOST OF BULLETS CROSSING LINE WERE FROM CARRANZISTAS.

ALL QUIET TODAY

Exact Location of Villa's Army is Not Definitely Known—Some Reported It At Osborne, Arizona—Entire Force Said to Be 12,000.

Washington, Nov. 4.—The Carranza troops were the main offenders in the Agua Prieta firing across the border, General Funston reported today.

Both sides, however, did all possible to prevent injury.

Funston said he could not have opened fire on one without the other. The immediate danger has passed.

The present location of Villa's forces is not definitely known. Last night it was rumored that he was at Cabullona, eighteen miles south, resting for another attack. Some of his supply trains have reached Naco. Four thousand of his soldiers are reported opposite Osborne, Arizona.

Villa's entire force is estimated at twelve thousand men.

ARDMORE HAS ANOTHER NEW INDUSTRY

LOUIS BROOKS, LOCAL GAS FITTER, HAS INVENTED A GAS BURNER THAT IS BEING APPLIED TO HEATERS.

Louis Brooks, a local man, who for a number of years has been employed as a gas and steam fitter by Kennerly, Spragins & Lewis, has invented a burner for gas heaters that promises to revolutionize the gas heating industry of the country. It is claimed that his burner possesses many features lacking in other makes, and besides being economical in the use of gas, gives forth more heat than any other on the market.

Wilson Newman has been making the stoves, to which the burner is applied, and so far has been unable to supply the demand. They have sold over one hundred since the burner was perfected, and are unable to fill orders.

Mr. Brooks has patented his invention, and seems to think he has a fortune awaiting him. The burner, on a larger scale, can be applied to steam boilers, and yesterday the Board of County Commissioners had one installed in the heating plant of the county court house and jail, and will burn gas instead of coal this winter. Yesterday the burner was given a severe test at the court house heating plant, and gave entire satisfaction, with a material reduction in the cost of fuel. In all probability the Brooks heater will be manufactured upon a larger scale next season.

Fired On By Calles' Men.

Douglas, Ariz., Nov. 4.—Funston's report to Washington adds that a detachment of United States cavalry was fired on by Calles' machine guns, and then by his artillery. The American customs inspector was also fired upon.

Naco is Villa's Capital.

Naco, Ariz., Nov. 4.—Naco, Sonora, just across the border, was declared by Villa today to be capital of Mexico, on his arrival with the vanguard of his army.

A bachelor girl is sometimes an old maid who is ashamed to admit it.
